### FRIED ONIONS.

Indirectly Caused the Death of the World's Greatest General.

It is a matter of history that Napoleon was a germand, an inordinate lover of the good things of the table, and history further records that his favorite dish was fried onions; his death from cancer of the stomach it is claimed also, was probably caused rom his excessive indulgence of this fondness for the odorous vegetable.

The onion is undoubtedly a wholeome article of food, in fact has many medicinal qualities of value, but it would be difficult to find a more indigestible article than fried onions, and to many people they are simply poison, but the onion does not stand alone inthis respect. Any article of food that is not thoroughly digested becomes a source of disease and discomfort whether it be fried onions or beef steak.

The reason why any wholesome food is not promptly digested is because the tomach lacks some important element of digestion, some stomachs lack peptone, others are deficient in gastric juice, still others lack hydrochloric acid.

The one thing necessary to do in any case of poor digestion is to supply those elements of digestion which the stomach lacks, and nothing does this so thoroughly and safely as Stuart's, Dyspepsia Tablets.

Dr. Richardson in writing a thesis on treatment of dyspepsia and indigesion, closes his remarks by saying, "for those suffering from acid dyspepsia. shown by sour, watery risings, or for flatulent dyspepsia shown by gas on stomach, causing heart trouble and difficult breathing, as well as for all other forms of stomach trouble, the safest treatment is to take one or two of Stuart's Dyspepsia Tablets after each meal. I advise them because they contain no harmful drugs, but are composed of valuable digestives, which act promptly upon the food eaten. I never knew a case of indigestion or even chronic dyspepsia which Stuart's Tab-

lets would not reach." Cheap cathertic medicines claiming o cure dyspepsia and indigestion can have no effect whatever in actively digesting the food, and to call any cathartic medicine a cure for indigestion

s a misnomer. Every druggist in the United States and Canada sells Stuart's Dyspepsia Tablets, and they are not only the safest and most successful, but the most scientific of any treatment for indigestion and stomach troubles.
